SPP/JH D(2010)

Subject: 1st renewable Energy Caucasus Forum

Dear Sirs

I send this short letter to express the European Commission's support for the aims of the 1st Renewable Energy Caucasus Forum in Baku, Azerbaijan. It is both timely and relevant for the Region.

Defining an adequate response to the challenge of climate change in a collaboration of government, business and science institutions is of major importance. Every player has a different perspective and awareness of the various components with respect to climate change. Therefore it is a great chance to bring people from fields, background and experience together to work on sustainable and responsible solutions.

On behalf of the European Commission, we wish you a successful Forum in Baku.

Joe Hennon
Spokesperson
Commissioner for Environment,
Janez Potočnik
