

JANEZ POTOČNIK
Member of the European Commission

Brussels, 5 October 2010
D(2010) 222

Dear Sirs,

I send this short letter to express the European Commission's support for the aims of the Environmental Business Forum in Moscow, scheduled for December 7-8, 2010.

The efforts to promote the development and transfer of clean technologies with focus on private business and education in Russia are very positive contributions to tackling the problems of climate change.

The Forum will establish a timely and relevant platform for exchanging know-how and ideas.

We appreciate the importance of engaging the business community in Russia in addressing the issues posed by climate change.

On behalf of the European Commission, I wish you a successful Forum in Moscow.

Yours sincerely,
